

TOYOTA

Getting Started with

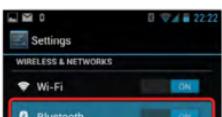

- Bluetooth® Pairing
- Toyota Apps
- Connected Services
- Apple CarPlay®
- Android Auto™
- Amazon Alexa

Bluetooth® Pairing¹

Note: Do not attempt the Bluetooth® Pairing process while driving.

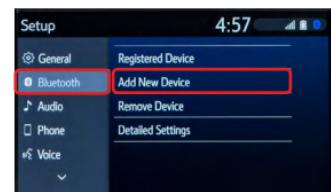

STEP 1 Press [MENU] on the faceplate, then select "Setup" on display screen.

iPhone Bluetooth Menu

Android Bluetooth Menu

STEP 2 Ensure Bluetooth is turned on for your device.

STEP 3 Select "Bluetooth," then select "Add New Device" on display screen.

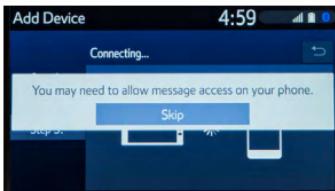

STEP 4 Select "Device Name."

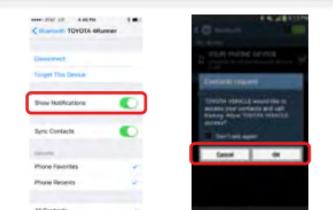

STEP 5 Check the display on your smartphone. Does the PIN XXXX match the PIN displayed? If it does, select "Pair."

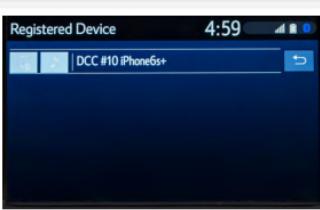

STEP 6 "Connecting" displays while device is forming the connection to your multimedia system.

STEP 7 Enable Notifications (text message). While pairing your device this message will display: "You may need to allow message access on your phone." Note: You may also select "Skip" on display screen to skip enabling notifications. If skipped proceed to **STEP 9**.

STEP 8 Turn on "Show Notifications" for iPhone® or "ON" for Android.

STEP 9 A confirmation will appear once your phone has been paired and connected.

Toyota Apps

Our Toyota app is the starting point to activate your vehicle's available connected service trials. App download is available for iPhone® or Android™ smartphones.

The Entune™ 3.0 app is required to link the Toyota audio multimedia system with available services such as Amazon Alexa.

Toyota apps are available for download. App Store is a service mark of Apple Inc.

Connected Services²

Safety Connect³

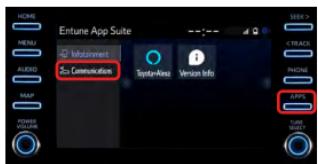

- **(SOS) EMERGENCY ASSISTANCE BUTTON**
- **AUTOMATIC COLLISION NOTIFICATION**
- **ROADSIDE ASSISTANCE**
- **STOLEN VEHICLE LOCATOR**

Safety Connect is dependent upon an operative telematics device, a cellular connection and other factors outside of Toyota's control, which can limit the ability to reach the response center or receive emergency support or otherwise limit the functionality or availability of the system. Terms and conditions of subscription service agreement apply.

Remote Connect⁴ (if equipped)

- **START/STOP ENGINE**
- **VEHICLE STATUS ALERTS**
- **LOCK/UNLOCK VEHICLE DOORS**
- **VEHICLE FINDER**

To enable Remote Connect you must authenticate and initialize your services via the audio multimedia system using an authorization code. An authorization code will be emailed to you during the connected services registration process.

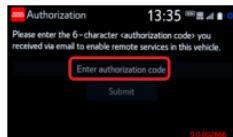

Available on select MY18 and newer vehicles.
(Remote Start/Stop is not available on vehicles equipped with Manual Transmission.)

STEP 1 Press [APPS] on the faceplate, then select "Communications" on display screen.

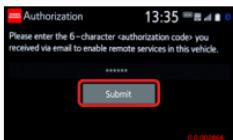

STEP 2 Select "Authorization" icon.

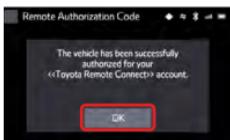

STEP 3 Enter the 6 character authorization code you received via email to enable remote services.

Remote Connect (continued)

STEP 4 Select "Submit."

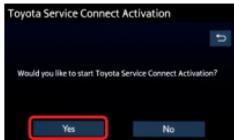

STEP 5 The vehicle has been successfully authorized for remote services. Select "OK."

Service Connect⁵ (if equipped)

- VEHICLE HEALTH REPORT
- VEHICLE MAINTENANCE ALERT NOTIFICATION

Available on select MY18 and newer vehicles.

STEP 1 After registering and opting into Service Connect, you will be greeted with a notification of the following language "**Would you like to start Toyota Service Connect Activation?**"

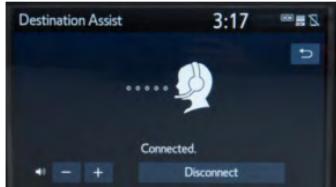

STEP 2 Select "Yes."

STEP 3 Select "OK."

Destination Assist⁶ (if equipped)

Destination Assist provides drivers 24-hour access to a live agent who can provide directions through the vehicle's factory-installed navigation system to an address or point of interest.

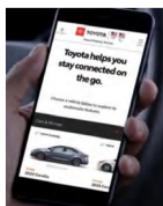

Wi-Fi Connect⁷

Multiple mobile devices

- Connect up to 5 Wi-Fi enabled devices
- Passengers can use smartphones, laptops and tablets

Infotainment

- Browse the internet
- Send and receive email
- Stay connected on social media
- Access favorite apps
- Stream movies

Getting Started with Connected Services

Go to the App Store® (iPhone) or Google Play™ Store (Android) and search “Toyota,” then download and open the app.

TOYOTA

STEP 1a If you don't have a Toyota Owner's account, tap **Register** to create one. Proceed to **Step 2**.

STEP 1b If you already have a Toyota Owner's account but have not linked your **NEW** vehicle, tap **Sign In** and utilize your Toyota Owner's credentials to sign in. Proceed to **Step 4**.

STEP 2 Input your personal identification information, then tap **Sign Up**.
Note: You can also sign in with select social network credentials.

STEP 3 Retrieve the activation code from your email, then enter it and tap **Verify Account**.
Note: If you don't receive the email with your account activation code or its been more than 48 hours since you received it, tap **Request New Code**.

Where to find your VIN?

Where else could I find my VIN?
• Vehicle Registration
• Vehicle Insurance Card

STEP 4 Link your vehicle to your account by (a) scanning the vehicle identification number (VIN) with your device's camera or (b) manually entering in the VIN, then tapping **Add Vehicle**.

STEP 5 Confirm your preferred servicing dealer, review Terms of Use & Privacy Notice, then tap **Continue**.

Connected Services (continued)

Getting Started with Connected Services (continued)

- STEP 6** Review your available Connected Services trials, then tap **Continue**.
Note: Selecting **No Thanks** will waive all trials and disable your vehicle's telematics communication device.

- STEP 7** Review the Connected Services Data Handling Requirements consent, then tap, **Agree and Continue** if you accept.
Note: Selecting **No Thanks** will cancel all trials and disable your vehicle's telematics communication device.

- STEP 8** Review the Service Connect Communication consent, then tap **Agree and Continue** if you accept.
Note: You can also waive Service Connect Communication by tapping **No Thanks**.

- STEP 9** Review the Auto Insurance Designed for You consent, then tap **Agree and Continue** if you accept.
Note: You can also waive Auto Insurance Designed for You by tapping **No Thanks**.

- STEP 10** To complete the setup process, tap **Finish Setup**. If you have another vehicle to add to your garage, tap Add New and repeat **Steps 4–10**.

- STEP 11** You're now ready to experience the benefits of "Toyota" in your customizable personal dashboard.

Apple CarPlay® (If equipped)

Setup of Apple CarPlay®

- STEP 1** Ensure Siri® is enabled on your phone.

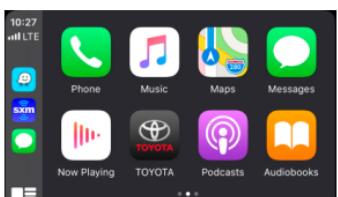

- STEP 2** Plug a compatible iPhone® into the USB media port using an Apple® approved cable.

- STEP 3** Select Always Enable to use CarPlay® each time the vehicle is operated.

- STEP 4** Select Allow to use CarPlay® while the phone is locked.

- STEP 5** Apple CarPlay® is now ready to operate.

Requirements:

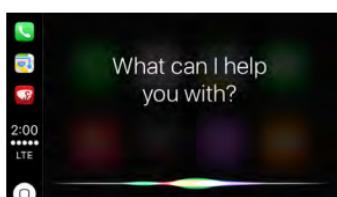

Bluetooth® functions will be inoperable while CarPlay® is in use. Wireless CarPlay® is not supported. Features may vary by vehicle model and phone.

To learn more about how your iPhone® works with CarPlay® visit: <https://support.apple.com/en-us/HT205634>
To view a full list of CarPlay® supported apps visit: <https://www.apple.com/ios/carplay/>

Siri® through CarPlay®

Push and hold the voice command talk switch for 2–3 second to activate.

Once Siri® is activated you can ask to: make calls, send and receive text messages, listen to music and more.

Android Auto™ (If equipped)

Setup of Android Auto™

- STEP 1** Download the **Android Auto™** app from the Google Play™ Store.

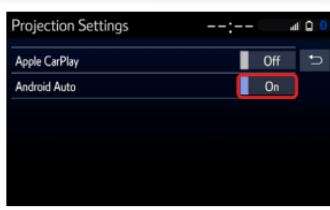

- STEP 3** Ensure **Android Auto™** is enabled on the phone.

- STEP 5** Plug a compatible **Android™** smartphone into the USB media port using an **Android** approved cable.

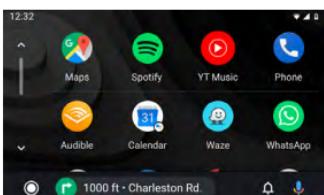

- STEP 2** Open **Android Auto™** app and tap get started.

- STEP 4** In the **Projection Settings** screen select **Android Auto™** to on.

- STEP 6** Press menu button and them select the **Android Auto™** icon.

- STEP 7** **Android Auto™** is now ready to operate.

Requirements:

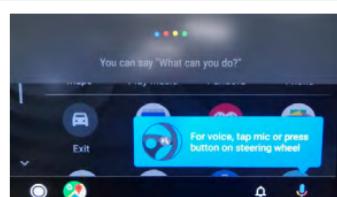

Bluetooth® functions will be inoperable while **Android Auto™** is in use. Wireless **Android Auto™** is not supported. Features may vary by vehicle model and phone.

To learn more about how to use **Android Auto™** visit: <https://www.android.com/auto>

Google Assistant through Android Auto™

Push and hold the voice command talk switch for 2–3 second to activate.

Once Google Assistant is activated you can ask to: make calls, send and receive text messages, listen to music and more.

Amazon Alexa (If equipped)

Toyota + Alexa Setup

Download on the
App Store

GET IT ON
Google Play

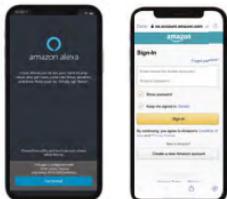

- STEP 1** Entune® 3.0 and Toyota+Alexa apps are available to download at your app store.

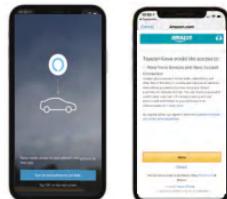

- STEP 2** Once Toyota+Alexa has successfully installed, open the app to complete the setup. Tap **Get started**.

iPhone users

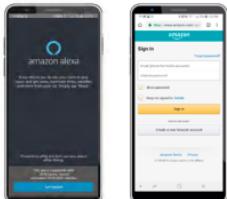

- STEP 3** Depending on your phone and application settings, Toyota+Alexa may automatically sign you in. Otherwise, **Sign In** or **Create a new Amazon account**.

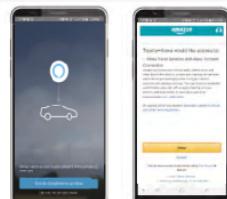

- STEP 4** Tap **Allow** for Toyota+Alexa to access Alexa Voice Services and Alexa Account Connection. Allow permissions.

Android users

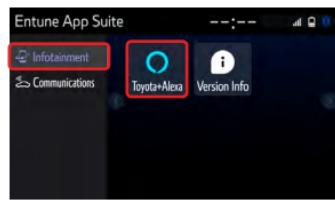

- STEP 3** Depending on your phone and application settings, Toyota+Alexa may automatically sign you in. Otherwise, **Sign In** or **Create a new Amazon account**.

- STEP 4** Tap **Allow** for Toyota+Alexa to access Alexa Voice Services and Alexa Account Connection. Tap **Enable Permissions**.

- STEP 5** To use the Toyota+Alexa app, your mobile device must be paired to the vehicle via Bluetooth®.

- STEP 6** To launch Toyota+Alexa, press **Apps** and select **Toyota+Alexa**. Toyota+Alexa is now ready. Just say “Alexa” and wait for the tone, then speak your command.

Note: Ensure the Toyota + Alexa app is open on the paired phone.

Several factors may affect smartphone and/or system performance *including*:

1. Smartphone operating system software version
2. Smartphone battery power level
3. Poor cellular reception to the smartphone
4. Multiple applications running on a smartphone at the same time
5. Charge/media cable quality
6. Smartphone operating system updates may also affect Toyota app functionality

Privacy & Protection
